

TELANGANA JOINT ACTION COMMITTEE

Office: Qtr.No.222, New MLA Quarters, Aadarsh Nagar,Hyderabad (A.P),
Cell: 9848387001, E-mail : kodandram2003@yahoo.com

Dt. 7.01.2013

To

Hon'ble Governor

Andhra Pradesh State
Hyderabad.

Dear Sir,

“Sometimes death becomes the hope of having that peace you can never have in your life. That is when suicide becomes a valid and strong form of political protest for many.”

On behalf of the Joint Action Committee (JAC) we would like to submit the following regarding the series of suicides occurring in Telangana. As you are aware of, suicide as a form of protest is widely used in Telangana. So far nearly 900 youngsters have sacrificed their lives voluntarily demanding Telangana State. Of these happenings, about 350 deaths are due to heart attack caused by shock and agony. The rest have committed suicide using various methods. Hanging, consuming poison, jumping under a train and self-immolation are the widely used forms of suicide. The largest number of suicides is reported from Warangal and Karimnagar.

Sir, the above mentioned men and women have not died due to personal reasons. All of them have given their lives in the hope of becoming a catalyst for change for betterment of others' predicament. Suicide becomes an option when all hopes of a just settlement are shattered, and all avenues for securing justice appear closed. Their suicide notes and dying declarations graphically and clearly mentioned that they resorted to that step with disillusionment caused by the inaction of the Government.

As you are well aware, vast majority of Telangana people would like to live in their own State. The people of Telangana are struggling for Statehood of this region for about 50 years in order to get their judicious share of political power to use the resources of this region for their economic growth and prosperity. But they are denied this democratic choice and the struggle is going on for several decades.

The demand is accepted by every political party. In the 2009 elections, all the political parties, except CPM, promised to help the formation of the Telangana State. The process for the formation of Telangana State was announced on the 10th Dec, 2009 on the floor of the Parliament. Yet, the decision was stalled with a statement that further consultations are necessary. And the All Party Meeting held on 28th Dec, 2012 by the Union Home Minister decided in favour of the Telangana state. In the meeting the Union Home Minister promised that a decision on Telangana would be announced within a month. Once again, the Union government failed to adhere to the promise.

When the Union Home Minister has almost promised after the All Party Meeting that some decisive step would be taken in the case of Telangana by 28th Jan, there were no suicides in the region. But once Shri Ghulam Nabi Azad made his frivolous announcement on the 23rd Jan saying that the decision on Telangana is unlikely by 28th Jan, six young men committed suicide. And, one girl who set herself on fire is in a very serious condition. The list is attached herewith.

We appealed earnestly to the Telangana youth and held a number of counselling classes. We did everything possible within our means. Yet our efforts have not yielded results. Counselling works effectively only in cases where suicides are due to personal distress. But, these youth are resorting to suicide as a form of protest. In such instances political intervention is needed. Governments, both at the Central and State level, should respond in this type of situations. The Government should at least give a promise that they will stick to the electoral promise made. Any government should fulfil the aspirations of the people; and in this particular context, respect their own word to prevent the irreparable loss of life. Unfortunately we witness a total absence of response and the failure of governance.

The Government of India cannot continue to postpone this decision to form the State just to appease the small lobby groups who indulged in several illegal activities in the Telangana region to grab the wealth exploiting the resources of the people and manipulating the governing processes. With this brute and money power and media ownership they are trying to subvert the healthy democratic processes and norms.

All kinds of baseless arguments are put forth for denying justice to the people of Telangana due to the pressure from vested interests. For example, it is often said that if Telangana State is formed it might trigger many more such demands leading to the disintegration of the country. This argument is not borne by facts. After the first States Reorganisation, 14 states came into existence. In the subsequent period another 14 states were created. Sir, as you are aware of the fact that the three new states – Chattisgarh, Uttarakhand and Jharkhand - were created in the year 2000. No fresh demands came up after that. Creation of new states has not led to the disintegration of the country. Even if there are demands from the other regions, the Central Government should exercise its discretion in meeting those demands. For the fear of some vague apprehensions, a just demand should not be set aside.

It is also argued that a consensus at the national level is required to form the Telangana State. The demand for a separate state can be interpreted as a desire for greater democracy and empowerment. As such it has to be examined keeping in mind the realities of the region. Due to the colonial past all the regions in India have not developed on par with each other. There are notable variations in terms of history, culture and political institutions from one region to the other. Given these facts, each case has to be examined separately. Therefore it would be illogical to talk about a national policy. A time has come that government should ignore such baseless arguments and form the Telangana state.

A delay in the decision is leading to suicides. This is not in the best interests of India, which claims itself as the largest democracy in the world. We would like to bring to your kind notice that, the entire Arab spring has been ignited by one suicide. Even after the occurrence of more than 1000 suicides, which are still continuing, our collective con-

sciousness of the democratic India has not resulted in a spirit to fulfil its own promise to establish the Telangana State. We request you to impress upon the Union Government to deliver an early decision to form the Telangana State and prevent further loss of life.

Yours sincerely,

Foreword

Life is precious. We love our life. We protect our life.

Yet over 1000 Telangana people have sacrificed their precious lives.

We have not witnessed such a massive 'sacrifice' anywhere in the history of the world.

These martyrs did it for the sake of freedom from the oppression of the selfish Andhra rulers. They did it for the liberty of Telangana people. They did it to put a stop to the looting of Telangana lands, water, coal, minerals, jobs etc. They did it to stop the discrimination of Telangana people in every sphere and everywhere.

This fourth edition of the book is being published in November 2013. The recording of this data started when Srikantha Chary immolated himself on 29th November 2009. This was a spontaneous protest against the arrest of KCR to prevent his fast-unto-death at Siddipet. Well, over 1000 deaths have occurred in the last four years!

The primary reasons for these sacrifices are:

- a) Disappointment over the delay in securing Telangana State
- b) Periodic provocative and negative statements by several Andhra and central government leaders
- c) Biased reporting by the Andhra media
- d) The evil report of the 'SriKrishna Committee'
- e) Biased treatment of the Andhra police, lawyers and justices
- f) Less than expected participation in the movement by the Telangana Ministers.

At last, the Central Government has initiated the process to form the state of Telangana. We urge the government to speed up the process to prevent more disappointments and suicides. Time has come to liberate the Telangana people from the evil rule of the selfish Andhra leaders. It is absurd to see that a case is filed in the Supreme Court against the formation of Telangana. The apex court should dismiss this case immediately.

Again, we appeal to all Telangana people not to patronize Andhra TV channels and news papers. Don't be misled by the false statements of the Andhra political leaders. We finally have the right leaders in Telangana. Telangana state formation is now certain.

9th, November 2013

**TELANGANA MOVEMENT
SUICIDES, SACRIFICES & MARTYRS
29th Nov' 2009 - 9th Nov' 2013**

**TELANGANA DEVELOPMENT FORUM USA / INDIA
TELANGANA SENIOR CITIZENS ASSOCIATION**

SPEECH OF Smt. J. ESHWARI BAI, MLA
in AP State Assembly on 23-11-1969 on Telangana Issue

" If you say that the Telangana Movement is going on for 9 months, who is responsible for this ?

I am asking - ' What has been done by the Chief Minister and the rest of the Ministers since the movement has started ? ' You say that it is the movement of the youth. Did you ever invite them and ask what they want ? No, you did not, who is responsible for this ongoing Telangana Movement ? 350

people died in this nine months. 18 of them died due to ' Lathi charge.' 70,000 were arrested. About 7,000 of them are women, 300 were arrested under P.D. Act !

They used ' Lathi charge ' 3,266 times in Telangana districts. 20,000 were hurt badly, Bloody wounds were inflicted on 11,551. 1840 faced bullets and suffered fractures. Tear gas was used 1870 times. Not so much atrocity was seen in the 5 year ' Quit India ' movement of 1938 - 1942.

Why did this Telangana movement come ?

What was the necessity ?

If you think about this basic question, there will be no need for all these undesirable events.

The main reason for the movement is that Telangana has been cheated. Nothing happened as per the ' Elders Agreement ' of 1956. Like the Pandavas, Telangana has been in 12 years of ' Aranya Vasa ' now they are in the one year of ' Agnatha Vasa '.

What needs to be done that has not been accomplished in the last 12 years ?

Today, there are over 80,000 unemployed youth. Many of them are doctors, engineers, technicians, M.A. and M.Sc. s and are also the ' Mulki ' of Telangana and they have suffered without any employment. Actually, the students started this movement. We questioned the unfairness to Telangana in ' Pranthiya Committee ' meetings every time. We asked why the Telangana money is not spent for Telangana. In response the CM called a meeting on Jan 18 - 19, 1969. Another agreement was signed. It was promised to transfer Andhras and replace them with Telangana people. It was promised that they will even create new posts in Telangana.

Then the Chief Secretary, M.T. Raju misled the NGOs to go to court. What did they get ?

They removed the ' Mulki ' rule. They approached the C.M. He assured that he will go to supreme court to reinstate the ' Mulki ' rule. But he did not succeed. It was all a drama played to cheat Telangana. What are the Cabinet Ministers of Telangana doing ? Is it necessary to cling to their posts when Telangana is suffering so much.

After killing of so many people, do you have any plan to solve the problem ? You brought in police --- Madras police, Mysore police, Rajasthan police, Uttar Pradesh police, Kerala police --- 75,000 of them. " Is this the Democracy ? " I am asking. " Can the police suppress the Democracy ? "

I am asking.

The police are beating everyone they see as though they are mad dogs.

" Who ordered the police to beat the people going on bicycles ? They are holding sticks and beating everyone in sight.

If a few students throw stones at the police, should the police open fire and kill them ? They should have the Magistrate orders to open fire. But they fired without such orders. They poured petrol to set fire two engineering students. They killed in Jamia Usmania. There are many such incidents. They used the guns so freely that we did not experience this in the 250 years of British rule. If they pelted stones, could you not use tear gas ? or Latis ? or fire in the air ?

Brains fell out of the skulls due to firing !

Even when the shop keepers closed their shops out of fear, they broke in and shot them in the legs and chest.

When so much is going on, the CM, Brahmananda Reddy did not even feel like an ant's bite.

When so many lives were lost, the CM never went to Delhi and never did any thing.

On the contrary, he is informing Delhi that everything was fine. He may not have kids. But ! We have kids, Don't the Ministers have Kids ? Others' Kids are not our Kids ?

During curfew, a Muslim boy was shot and killed by police in ' Chilakala Guda basthi . How can I narrate so many atrocities on Telangana people.

It is better to separate as brothers and live together like friends. For this, president's rule must be imposed immediately.

" If you do not agree, be prepared for a civil war. "

- J. Eshwaribai

(Mother of the Present Minister Dr. Geetha Reddy)

(Note : Translated from Telugu by B.V. Rao, Chairman, Telangana Development Forum)

Another Black Day for Telangana

28th January 2013 will go down in history as another Black - Day for Telangana.

Inspite of KCR's skepticism about the announcement of Shinde on 28th December 2012 that a decision will be taken on Telangana in one month, majority in Telangana hoped for a favourable announcement by 28th January.

But both Azad and Shinde made statements that have shocked Telangana.

This has sent tremors in the minds of the following 13 more innocent youth and they have committed suicide. This is actually a violent act on the part of Mr. Azad and Mr. Shinde as far as the families of these youngsters are concerned.

So, we in Telangana request you both to stop the Cruelty and Killing ! We believe that the CM of AP is misleading the top Congress Leaders. The Congress party is on Ventilator in Telangana.

If you want the party to survive, then Act immediately !!!

SUICIDES OCCURED FROM 28-01-2013 To 09-02-2013

Sl. No.	Name	Dist	Method/Cause	Date of Death
1	Shankar Bharatam	ABD	Falling Under Train	Mon., Jan. 28, 2013
2	Narsaiah Gummala	ABD	Heart Attack	Mon., Jan. 28, 2013
3	Ramulu Gundlamma	NLG	Falling Under Bus	Tue., Jan. 29, 2013
